The Question Bank

Explanation:

1. The number of users of Yetel during 2015 to 2017 = $(55 + 80 + 60) = 195$
The number of users of Modafone during 2015 to 2017 = $(75 + 40 + 40) = 155$
Required ratio = $195 : 155 = 39 : 31$.
Hence, option B is correct.

2. Total users of all three companies in 2014 = $70 + 80 + 60 = 210$
Total users of all three companies in 2017 = $60 + 85 + 40 = 185$
$$Reqd \% = \frac{210 - 185}{210} \times 100 = 11.9\%$$

Hence, option A is correct

3. The number of users of Modafone & Gio in the 2016 = $40 + 60$
And the number of users of Yetel in 2016 = 80
$$Reqd \% = \frac{100}{80} \times 100 = 125\%$$

Hence, option D is correct.

4. Total number of users in all the years together = $70 + 80 + 60 + 55 + 45 + 75 + 80$
 $+ 60 + 40 + 60 + 85 + 40 = 750$
$$Reqd\ avg = \frac{750}{4} = 187.5\ lakhs$$

Hence, option B is correct.
