Alpha Numeric Questions for IBPS RRB Scale-I Pre Exams.

Alpha Numeric Quiz 53

Directions: Following questions are based on the five three-digit words given below:

MASK SNOW ROME KELP PANT

1. If the given words are arranged in the order as they appear in a dictionary from left to right, which of the following will be the third from the left end?

- A. MASK B. SNOW C. ROME D. KELP E. PANT

2. How many letters are there in English alphabetical series between second letter of the word which is second from the right end and the third letter of the word which is third from the right end?

- A. 2 B. 8 C. 3 D. 7 E. 6

3. If the first letter in each word is changed to the next letter in English alphabetical order, which of the following words thus formed will have maximum number of vowels?

- A. MASK B. SNOW C. ROME D. KELP E. PANT

4. If the first and the third alphabets in each word are interchanged, how many such meaningful words can be formed after rearrangement?

- A. 0 B. 1 C. 2 D. 3 E. More than three possibility

5. In each word, each of the consonants is changed to its previous letter and each of the vowels is changed to its next letter in the English alphabetical order, then how many words will have atleast one vowel?

- A. 1 B. 2 C. 3 D. 4 E. 5

Explanation:

1. The given sequence: MASK SNOW ROME KELP PANT

The new sequence after applying above condition:

KELP MASK PANT ROME SNOW

The third from the left end = PANT

Hence, option E is correct.

2. The given sequence:

MASK SNOW ROME KELP PANT

The second letter of the word which is second from the right end - KELP

The third letter of the word which is third from the right end – ROME

Number of letters between E and M as per the alphabetical series is - 7

Hence, option D is correct.

3. The given sequence:

MASK SNOW ROME KELP PANT

1. First letter of MASK is M and next alphabet according to alphabetical series is N. So there is only 1 vowel in the word.

2. First letter of SNOW is S and next alphabet according to alphabetical series is T. So there is 1 vowel in the word.

3. First letter of ROME is R and next alphabet according to alphabetical series is S. So there are 2 vowels in the word.

4. First letter of KELP is K and next alphabet according to alphabetical series is L. So there is 1 vowel in the word.

5. First letter of PANT is P and next alphabet according to alphabetical series is Q. So there is 1 vowel in the word.

So, the word with maximum number of vowels is ROME with 2 vowels, O and E.

Hence, option C is correct.

4. The given sequence:

MASK SNOW ROME KELP PANT

Interchanging first and third alphabets, we get:

SAMK - not a meaningful word

ONSW - not a meaningful word

MORE - meaningful word

LEKP - not a meaningful word

NAPT – not meaningful word

Hence, option B is correct.

5. The given sequence:

MASK SNOW ROME KELP PANT

Applying the above conditions in the given sequence, we have:

The new sequence:

LBRJ RMPV QPLF JFKO OBMS

As we can see both JFKO and OBMS have one vowel each.

Hence, option B is correct.
