CLAT Current Affairs Quiz 9

Directions: Study the following information carefully and answer the questions given below.

The culture ministry has said it will revisit the policy which regulates construction around centrally-protected monuments and classify them based on their historical significance.

At present, the Ancient Monuments and Archaeological Sites and Remains Act, ____ A ____ , imposes a ban on construction of any kind within a ____ B ____ metre periphery of centrally-protected monuments and allows only certain types of regulated construction within the 100-200 metre perimeter.

While conservationists may disagree, many in the government believe the existing provisions come in the way of significant development work around these areas. With this in mind, the government had moved an amendment to the law in 2018 through which it sought to remove these restrictions.

A parliamentary standing committee, which examined the bill and submitted its report in February 2019, advocated the need for a law that balanced preservation of monuments of historical significance and development of infrastructure around them, keeping in mind the needs of tourists as well as those who live around them.
