# Logical Reasoning Questions for CLAT Exam.

## CLAT Reasoning Quiz 50

**1. Directions: The following question, a statement is given followed by two conclusions. Give answer:**

**Statement :** According to Baba Ramdev “Values, integrity and peace of mind are essential for a beautiful life.”

**Conclusions:**

- I. Baba Ramedev believe that each of values, integrity and peace of mind are essential for a beautiful life.
- II. Baba Ramdev believes that materialistic person cannot have a beautiful life.

- A. If only conclusion I follows.
- B. If only conclusion II follows.
- C. If both conclusion I and II follow.
- D. If neither I nor II follows.

**2. Directions: The following question, a statement is given followed by two conclusions. Give answer:**

**Statement :** Anyone who manages an engineering organisation like Tata Motors can only be successful if he has the knowledge of the professional work that is carried on in the organisation.

**Conclusions:**

- I. If you want to run any company, it is essential that you should know the professional work associated with it.
- II. In order to manage an engineering organisation like Tata Motors, it is essential to have an engineering education background.

- A. If only conclusion I follows.
- B. If only conclusion II follows.
- C. If both conclusion I and II follow.
- D. If neither I nor II follows.

**3. Directions: The following question, a statement is given followed by two conclusions. Give answer:**

**Statement :** India won the second test match against Pakistan by one innings and two hundred and three runs. The greatest contribution was from the bowlers.

**Conclusions:**

- I. Most of the Indian players are bowlers.
- II. It was India’s biggest win against Pakistan.

- A. If only conclusion I follows.
- B. If only conclusion II follows.
- C. If both conclusion I and II follow.
- D. If neither I nor II follows.

**4. Directions: In question below is given a statement followed by two assumptions numbered I and II. Consider the statement and decide which of the given assumption is implicit.**

**Statement :** A Reliance Fresh Retail store was attacked by vegetable vendors in Ranchi.

**Assumptions :**

- I. Reliance Fresh was affected the livelihood of local vegetable vendors.
- II. Reliance Fresh stores are built in thickly populated areas.

- A. If only assumption I is implicit
- B. If only assumption II is implicit
- C. If both I and II are implicit
- D. If neither I nor II is implicit

**5. Directions : For the Assertion (A) and Reasons (R), choose the correct alternative from the following.**

**Assertion :** Over the past few decades, there has been drastic global warming.

**Reason :** The push for economic development has increased to dangerous proportions the emission of greenhouse gases into the atmosphere.

- A. Both A and R are true and R is the correct explanation of A.
- B. Both A and R are true but R is not correct explanation of A.
- C. A is true but R is false
- D. A is false but R is true

**6. Directions : For the Assertion (A) and Reasons (R), choose the correct alternative from the following.**

**Assertion :** Kerala is the largest state in India.

**Reason :** Some of the leading car manufacturing companies of the world are Japanese.

- A. Both A and R are true and R is the correct explanation of A.
- B. Both A and R are true but R is not correct explanation of A.
- C. A is true but R is false
- D. A is false but R is true

**7. Directions : For the Assertion (A) and Reasons (R), choose the correct alternative from the following.**

**Assertion :** The filament inside a bulb is made of copper.

**Reason :** Usually there is vacuum in the bulb

- A. Both A and R are true and R is the correct explanation of A.
- B. Both A and R are true but R is not correct explanation of A.
- C. A is true but R is false
- D. If both A and R are false

**8. Directions :** In the following question a statement is given followed by two courses of action. A course of action is taken for improvement, follow up, etc. Read the statement carefully and give your answer as

**Statement :** There is a proposal for the Maharashtra government to clear the slum areas in Mumbai for beautification and economic development.

**Course of Action :**

- I. The Maharashtra Government should compensate the affected persons with reasonable amount.
- II. The Maharashtra Government should stop beautification and economic development work immediately

- A. If only course of action I follows.
- B. If only course of action II follows
- C. If both I and II follow
- D. If neither course of action I nor II follows.

**9. Directions:** In given question below are given some statements followed by some conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows/follow from the given statements, disregarding commonly known facts.

**Statement :** Some actors are producers.

No producer is a musician.

All musicians are painters.

- Conclusions:**
- I. All producers being musicians is a possibility.
  - II. Some painters are definitely not producers.
  - III. All actors are musicians.

- A. if only conclusion I does not follow
- B. if only conclusion II does not follow.
- C. if only conclusion III does not follow
- D. if both conclusion I and III do not follow.

**10. Directions:** In given question below are given some statements followed by some conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows/follow from the given statements, disregarding commonly known facts.

**Statement :** All pens are pencils.

Some papers are pencils.

No paper is an eraser.

- Conclusions:**
- I. Some pens are pencils.
  - II. Some erasers are not papers.
  - III. All erasers being papers is a possibility.

- A. if only conclusion I does not follow
- B. if only conclusion II does not follow.
- C. if only conclusion III does not follow
- D. if both conclusion I and III do not follow.

**Correct Answers:**

<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>	<b>6</b>	<b>7</b>	<b>8</b>	<b>9</b>	<b>10</b>
C	B	D	A	A	D	D	A	D	C

**Explanations :**

1. Conclusion I follows since that is what is meant by the statement. Materialism is generally anti value and integrity and hence we can draw the second conclusion.

Hence option C is correct.

2. The statement particularly talks about engineering organisations like Tata Motors. The first conclusion is generalising the statement and is hence not valid as a conclusion. The second conclusion follows.

Hence, option B is correct.

3. Both conclusions are invalid.

Hence, option D is correct.

4. Assumption I is implicit because somewhere down the line, Reliance Fresh is affecting the local vendors. That is why they have been violent. Assumption II is irrelevant because nothing is mentioned regarding the location of the stores.

Hence, option A is correct.

5. Green house gases are the root cause of global warming. Hence both A and R are true and R explains A.

Hence option A is correct.

6. The Assertion is false because Kerala is not the largest state in India. R is true but it is not related to Assertion.

Hence, option D is correct.

7. A is false because a bulb's filament is made of Tungsten and not copper. R is also false because inert gases or nitrogen are filled inside the bulb and there is no vacuum in the bulb.

Hence, option D is correct.

8. Only course of action I follows. Government should take care of affected people. It should pay reasonable amount to affected persons. Second course of action does not follow because it is illogical.

Hence, option A is correct.

9. No producer is a musician (E)  $\rightarrow$  implication  $\rightarrow$  Some producers are not musicians (O). Hence conclusion I does not follow

No producer is a musician (E) + All musicians are painters (A) = E + A = O\* = Some painters are not producers (O\*). Hence conclusion II follows.

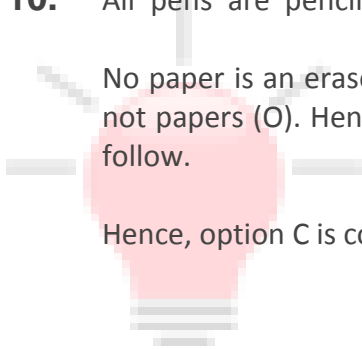

Some actors are producers (I) + No producer is a musician (E) = I + E = O = Some actors are not musicians (O). Hence conclusion III does not follow. This both conclusion I and III do not follow.

Hence, option D is correct.

10. All pens are pencils (A)  $\rightarrow$  implication  $\rightarrow$  Some pens are pencils (I). Hence conclusion I follows.

No paper is an eraser (E)  $\rightarrow$  conversion  $\rightarrow$  No eraser is a paper (E)  $\rightarrow$  implication  $\rightarrow$  Some erasers are not papers (O). Hence conclusion II follows. But the possibility in III does not exist. Hence III does not follow.

Hence, option C is correct.
