## Classification Questions for Bank Exams (CGL Tier 1 \& SSC 10+2)

## Classification Quiz 4

Directions: In this type questions, usually four groups of letters are given. Three of them are similar to each other in some manner while one is different and this is to be chosen by the candidate as the answer

1. Select the one which is different from the other four responses.
A. TOQR
B. YTUV
C. KFHI
D. WRTU
2. Select the one which is different from the other four responses.
A. PT
B. ES
C. FA
D. OC
E. UX
3. Select the one which is different from the other four responses.
A. OMQ
B. HFJ
C. TPR
D. TRV
E. VTX
4. Select the one which is different from the other three responses.
A. ADGJ
B. MPSV
C. EHJN
D. LORU
5. Select the one which is different from the other three responses.
A. DCFG
B. FEHI
C. JILM
D. HGJL
6. Select the one which is different from the other four responses.
A. LOK
B. WZV
C. RUQ
D. DFC
7. Select the one which is different from the other three responses.
A. BEG
B. KNP
C. WZB
D. JLN
8. Select the one which is different from the other four responses.
A. XZTV
B. QSMO
C. VXSU
D. FHBD
9. Select the one which is different from the other three responses.
A. AZBY
B. CXDW
C. EVFU
D. TGSH
10. Select the one which is different from the other three responses.
A. EV
B. BS
C. IZ
D. DX

## Correct Answers:

| $\mathbf{1}$ | $\mathbf{2}$ | $\mathbf{3}$ | $\mathbf{4}$ | $\mathbf{5}$ | $\mathbf{6}$ | $\mathbf{7}$ | $\mathbf{8}$ | $\mathbf{9}$ | $\mathbf{1 0}$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| B | A | C | C | D | D | D | C | D | A |

## Explanations:

1. 

Except second option, in all other options the difference between letters are same.
$1^{\text {st }}$ option: $\mathrm{T}-(-5) \rightarrow \mathrm{O}-(+2) \rightarrow \mathrm{Q}-(+1) \rightarrow \mathrm{R}$
$3^{\text {rd }}$ option: $\mathrm{K}-(-5) \rightarrow \mathrm{F}-(+2) \rightarrow \mathrm{H}-(+1) \rightarrow$ I
$4^{\text {th }}$ option: $\mathrm{W}-(-5) \rightarrow \mathrm{R}-(+2) \rightarrow \mathrm{T}-(+1) \rightarrow \mathrm{U}$
$5^{\text {th }}$ option: $\mathrm{Q}-(-5) \rightarrow \mathrm{L}-(+2) \rightarrow \mathrm{N}-(+1) \rightarrow \mathrm{O}$
But,
$2^{\text {nd }}$ option: $\mathrm{Y}-(-5) \rightarrow \mathrm{T}-(+1) \rightarrow U-(+1) \rightarrow V$ Hence, option B is correct.
2.

Except in PT, in all others there is one Vowel and one Consonant.
Hence, option A is correct.
3.

Except third option, in all other options the difference between the letters are same.
$1^{\text {st }}$ option: $\mathrm{O}-(-2) \rightarrow \mathrm{M}-(+4) \rightarrow$ Q2nd option: $\mathrm{H}-(-2) \rightarrow \mathrm{F}-(+4) \rightarrow$ J
$4^{\text {th }}$ option: $\mathrm{T}-(-2) \rightarrow \mathrm{R}-(+4) \rightarrow$ V5th option: $\mathrm{V}-(-2) \rightarrow \mathrm{T}-(+4) \rightarrow \mathrm{X}$
But,
$3^{\text {rd }}$ option: $T-(-4) \rightarrow P-(+2) \rightarrow R$
Hence, option C is correct.
4.

Except third option, all other options' letters difference are same.
$1^{\text {st }}$ option: $\mathrm{A}-(+3) \rightarrow \mathrm{D}-(+3) \rightarrow \mathrm{G}-(+3) \rightarrow \mathrm{J}$
$2^{\text {nd }}$ option: $\mathrm{M}-(+3) \rightarrow P-(+3) \rightarrow S-(+3) \rightarrow V$
$4^{\text {th }}$ option: $\mathrm{L}-(+3) \rightarrow \mathrm{O}-(+3) \rightarrow \mathrm{R}-(+3) \rightarrow \mathrm{U}$
But,
$3^{\text {rd }}$ option: $\mathrm{E}-(+3) \rightarrow \mathrm{H}-(+2) \rightarrow \mathrm{J}-(+4) \rightarrow \mathrm{N}$
Hence, option C is correct.

## 5.

Except fourth option, in all other options the difference between letters are same.
$1^{\text {st }}$ option: $\mathrm{B}-(-1) \rightarrow \mathrm{A}-(+3) \rightarrow \mathrm{D}-(+1) \rightarrow \mathrm{C}$
$2^{\text {nd }}$ option: $\mathrm{X}-(-1) \rightarrow \mathrm{W}-(+3) \rightarrow \mathrm{Z}-(+1) \rightarrow Y$
$3^{\text {rd }}$ option: $\mathrm{N}-(-1) \rightarrow \mathrm{M}-(+3) \rightarrow \mathrm{P}-(+1) \rightarrow 0$
But,
$4^{\text {th }}$ option: $V-(-1) \rightarrow U-(+3) \rightarrow S-(+2) \rightarrow T$
Hence, option D is correct.
6.

Except fourth option, all other options' letters difference are same.
$1^{\text {st }}$ option: $\mathrm{L}-(+3) \rightarrow \mathrm{O}-(-4) \rightarrow \mathrm{K}$
$2^{\text {nd }}$ option: $W-(+3) \rightarrow Z-(-4) \rightarrow V$
$3^{\text {rd }}$ option: $R-(+3) \rightarrow U-(-4) \rightarrow Q$
$5^{\text {th }}$ option: $\mathrm{I}-(+3) \rightarrow \mathrm{L}-(-4) \rightarrow \mathrm{H}$
But,
$4^{\text {th }}$ option: $\mathrm{D}-(+2) \rightarrow \mathrm{F}-(-3) \rightarrow \mathrm{C}$
Hence, option D is correct.
7.

Except fourth option, in all others the difference between letters are the same.
$1^{\text {st }}$ option: $\mathrm{B}-(+3) \rightarrow \mathrm{E}-(+2) \rightarrow \mathrm{G}$
$2^{\text {nd }}$ option: $\mathrm{K}-(+3) \rightarrow \mathrm{N}-(+2) \rightarrow \mathrm{P}$
$3^{\text {rd }}$ option: $\mathrm{W}-(+3) \rightarrow Z-(+2) \rightarrow B$
But,
$4^{\text {th }}$ option: $\mathrm{J}-(+2) \rightarrow \mathrm{L}-(+2) \rightarrow \mathrm{N}$
Hence, option D is correct.

## 8.

Except third option, in all other options the difference between letters are same.
$1^{\text {st }}$ option: $X-(+2) \rightarrow Z-(-6) \rightarrow T-(+2) \rightarrow V$
$2^{\text {nd }}$ option: $\mathrm{Q}-(+2) \rightarrow \mathrm{S}-(-6) \rightarrow \mathrm{M}-(+2) \rightarrow \mathrm{O}$
$4^{\text {th }}$ option: $\mathrm{F}-(+2) \rightarrow \mathrm{H}-(-6) \rightarrow \mathrm{B}-(+2) \rightarrow \mathrm{D}$
$5^{\text {th }}$ option: $\mathrm{M}-(+2) \rightarrow \mathrm{O}-(-6) \rightarrow \mathrm{I}-(+2) \rightarrow \mathrm{K}$
But,
$3^{\text {rd }}$ option: $V-(+2) \rightarrow X-(-5) \rightarrow S-(+2) \rightarrow U$
Hence, option C is correct.
9.

Except TGSH all other options follow the same pattern.
Hence, option D is correct.
10.

EV is dfferent from other three responses because it's a pair of opposite letters.
ABCDEFGHIJKLM
ZYXWVUTSRQPON
Hence, option A is correct.
