Coding Decoding Quiz 78

Directions: In each of the following questions given below, a word or group of words is given followed by four combinations of letters and digits labeled as A, B, C and D. You have to find out which of the following four combinations correctly represents the word or group of words or vice-versa based on the codes and the conditions given below. If none of the combinations match, choose 'None of these' as your answer.

In a certain code language,

'Happiness Build Upon Ourself' is written as 'E8L R10S M3F C6Y'
'Beginnings Are Always Messy' is written as 'D4Z R9Y X6N R5Z'
'Never Doubt Your Instinct' is written as 'Q6M S7R Q3B S6W'
'Learn Something New Everyday' is written as 'F10H V4M X7V M6O'

Questions :

1.   What is the code of the word 'Messy'?

A. D4Z   B. R9Y   C. X6N   D. R5Z   E. None of these

2.   'X7V' is the code for which of the following word?

A. Learn   B. Something   C. New   D. Everyday   E. None of these

3.   What is the code of the word 'Success'?

A. R8H   B. E7U   C. R7E   D. E9U   E. None of these

4.   What is the code for the word 'Always Doubt'?

A. S6W D4Z   B. Q3B R9Y   C. Q6M X6N   D. S7R R5Z   E. None of these

5.   What is the code for the word 'Heaven'?

A. E7V   B. M5S   C. E7N   D. Q6H   E. None of these

Correct Answers:

1	2	3	4	5
C	D	A	E	B

Common explanation :

In the code given for each word,

First letter of the code → Preceding letter to the last letter of the respective word

For example, last letter of the word 'Happiness' is 'S' and we know that 'R' precedes 'S' in alphabetical series. Hence, the code will be 'R'.

Similarly, in the word 'Build' last letter is 'D' and the letter 'C' precedes it in alphabet. Therefore, the first letter of the code for the word 'Build' will be 'C'.

The number in the code can be obtained by subtracting 1 from the word which has even number of letters and adding 1 to the word which has odd number of letters.

For example, number of letters in 'Happiness' are 9 which is an odd number. So, we will add 1 to 9 which equals to 10. Hence, the number in the code will be 10.

Similarly, the number of letters in 'Upon' are 4 which is an even number. So, we will subtract 1 from 4 which equals to 3. Hence, the number in the code will be 3.

The last letter of the code → The opposite letter of the first letter of the given word, in reverse alphabetical order

For example, the first letter of the word 'Happiness' is 'H' and the opposite of 'H' in reverse alphabetical order is 'S'. Hence, the last letter in the code will be 'S'.

Similarly, the first letter from left end in 'Upon' is 'U' and the reverse of 'U' is 'F'. Hence, the last letter in the code for 'Upon' is 'F'.

Answers :

1.   Following the common explanation we can say that the code of the word 'Messy' is 'X6N'

Hence, the correct answer is option C.

2.   Following the common explanation we can say that 'X7V' is the code of the word 'Everyday'.

Hence, the correct answer is option D.

3.   Following the common explanation we can say that 'R8H' is the code of the word 'Success'

Hence, the correct answer is option A.

4. Following the common explanation we can say that 'R5Z S6W' is the code for the word 'Always Doubt'

Hence, the correct answer is option E.

5. Following the common explanation we can say that 'M5S' is the code of the word 'Heaven'.

Hence, the correct answer is option B.
