DI Bar Chart Questions for SBI Clerk Mains, IBPS Clerk Mains, SBI PO Pre and IBPS PO Pre Exams.

DI Bar Chart No 64

Directions: Study the following bar chart carefully and answer the questions given beside.

The bar graph given below shows the number of cars manufactured (in thousands) and the respective percentage of those cars sold by five different companies in 2017.

1. What is the difference between the cars sold by Maruti and cars sold by Mahindra in 2017?
A. 4900 B. 4700 C. 5100 D. 5300 E. None of these
2. What is the ratio of the number of Toyota cars that remained unsold in 2017 to the number of Honda cars that remained unsold in 2017?
A. 4 : 5 B. 16 : 25 C. 5 : 6 D. 25 : 36 E. 4 : 7
3. In 2018 the number of cars manufactured by Hyundai increased by 15% and the number of cars sold by Hyundai also increased by 22% with respect to the previous year. Find the number of cars that remained unsold in 2018.
A. 32464 B. 32564 C. 32664 D. 32764 E. 32864

4. What is the average number of unsold cars by all the five companies together in 2017?

- A. 26730 B. 26830 C. 26930 D. 27030 E. None of these

5. Total number of cars manufactured by Toyota and Honda together in 2017 is what percentage of the number of cars manufactured by Hyundai and Mahindra together in 2017?

- A. 10% B. 80% C. 90% D. 20% E. 25%

Correct Answers:

1	2	3	4	5
D	B	A	D	C

The Question Bank

Explanations :

1. Total number of cars sold by Maruti in 2017 = $0.58 \times 90000 = 52200$

Total number of cars sold by Mahindra in 2017 = $0.67 \times 70000 = 46900$

Required difference = $(52200 - 46900) = 5300$

Hence, option D is correct.

2. Total number of Toyota cars that remained unsold in 2017 = $0.28 \times 60000 = 16800$

Total number of Honda cars that remained unsold in 2017 = $0.35 \times 75000 = 26250$

Required ratio = $16800 : 26250 = 16 : 25$

Hence, option B is correct.

3. Total number of Hyundai cars manufactured in 2018 = $1.15 \times 80000 = 92000$

Total number of Hyundai cars sold in 2017 = $0.61 \times 80000 = 48800$

Total number of Hyundai cars sold in 2018 = $1.22 \times 48800 = 59536$

Total number of Hyundai cars that remained unsold in 2018 = $(92000 - 59536) = 32464$

Hence, option A is correct.

4. Total number of Toyota cars that remained unsold in 2017 = $0.28 \times 60000 = 16800$

Total number of Honda cars that remained unsold in 2017 = $0.35 \times 75000 = 26250$

Total number of cars unsold by Maruti in 2017 = $0.42 \times 90000 = 37800$

Total number of cars unsold by Mahindra in 2017 = $0.33 \times 70000 = 23100$

Total number of Hyundai cars that remained unsold in 2017 = $0.39 \times 80000 = 31200$

Total number of unsold cars in 2017 = $(16800 + 37800 + 26250 + 31200 + 23100) = 135150$

Average number of unsold cars in 2017 = $\frac{135150}{5} = 27030$

Hence, option D is correct.

5. Total number of cars manufactured by Toyota and Honda together in 2017 = (60000 + 75000) = 135000

Total number of cars manufactured by Hyundai and Mahindra together in 2017 = (80000 + 70000) = 150000

$$\text{Desired \%} = \frac{135000}{150000} \times 100 = 90\%$$

Hence, option C is correct.
