

Data Interpretation Table Chart Questions for SBI Clerk Pre, IBPS Clerk Pre, RBI Assistant, LIC Assistant Exams

DI Table Chart Quiz 17

Direction: Study the following table carefully and answer the questions based on it.

Organisation	Department						
	Production	HR	IT	Finance	Marketing	Merchandising	
Р	155	250	320	405	150	50	
Q	178	300	415	318	127	90	
R	58	275	204	250	188	66	
S	102	190	198	200	190	75	
Т	110	100	256	305	250	85	
U	60	150	225	220	168	35	

Number of women working in various departments of six different organisations

1. The number of women working in the HR department from organization S is what per cent of the total number of women working in the HR departments from all organizations together? (rounded off to two digits after decimal)

A. 13.45% B. 19.16% C. 21.92%

D. 15.02% E. None of these

2. What is average number of women working in the Finance department from all organizations together?

A. 226	B. 283	C. 312
D. 308	E. None of these	

3. Which organization has the least number of women employees working in all the given departments together?

A. T B. R C. U

D. S E. None of these

4. What is the ratio of the number of women working in the IT department from organizations P, Q and U together to the number of women working in the Marketing department of organizations P, S and T together?

A. 59 : 33 B. 96 : 31 C. 71 : 19 D. 71 : 23 E. None of these

5. If the women working in the Production department of organization Q were also to work in its Merchandising department, what would be the approximate percentage of women employees working for the Merchandising department of organization Q?

A. 19	B. 26	C. 11

D. 23 E. 15

SBI | RBI | IBPS | RRB | SSC | NIACL | EPFO | UGC NET | LIC | RAILWAY | CLAT | RJS

Correct Answers:

1	2	3	4	5
D	В	С	Ε	Α

Explanations:

1. Reqd. % = $\frac{190}{250 + 300 + 275 + 190 + 100 + 150} \times 100$

 $= \frac{190 \times 100}{1265} \approx 15.02\%$

Hence, option D is correct.

3. We can clearly observe from the table that U and R are the two organizations which have the least number of working women among all and on further observation we find that it is U in which the number of working women is even less than that of R.

Hence option C is the correct answer.

4. Reqd. ratio = $\frac{320 + 415 + 225}{150 + 190 + 250}$

 $=\frac{960}{590}$

= 96:59

Hence, option E is correct.

5. Reqd. % =
$$\frac{178 + 90}{178 + 300 + 415 + 318 + 127 + 90} \times 100\%$$

$$=\frac{268}{1428} \times 100\%$$

= 18.76 ≈ 19%

Hence, option A is correct.
