- A. A B. B C. C D. D E. None of these

Correct Answers:

1	2	3	4
B	A	D	C

Explanations:

1. We can clearly see from the table that
In year 2002 maximum number of employees hired = $2400 + 786 = 3186$.
Hence, option B is correct.

2. From the table, we can clearly see that the bank 'B' there was continuous decrement in hiring of clerical cadre employees over the years.
Hence, option A is correct.

3. Clerk recruited by bank E in 2004 = 1650
And officer recruited by bank A in 2002 = 415
Approximate % = $\frac{1650}{415} \times 100 = 397.59 \approx 400\%$
Hence, option D is correct.

4. From the table, we can clearly see that the bank 'C' there was continuous decrement in hiring of officer cadre employees over the years.
Hence, option C is correct.
