Vice President, Shri M. Venkaiah Naidu today termed the Covid-19 pandemic as the most serious challenge that has faced humanity in living memory and wanted the Indian strategic and academic community to focus on the world after Covid and its implications for India.

The Vice President, Shri Naidu, also the ex-officio President of the Indian Council of World Affairs (ICWA), made these remarks while addressing the 19th meeting of the Governing Council of the ICWA in virtual mode from Hyderabad today. Earlier in the day, he had chaired the 20th Meeting of the Governing Body of the ICWA.

Addressing the meetings, Shri Naidu noted with satisfaction that the analysis of the global impact of the pandemic has been a cross-cutting theme at ICWA in all its deliberations and areas of research.

The Vice President expressed appreciation for ICWA's activities through the past year notwithstanding the disruptions of the pandemic. It may be noted that in the past seven months, apart from its research activities, ICWA organized a total of 28 events which were a mix of conferences, panel discussions, lectures, track-II dialogues and book discussions.

Shri Naidu was happy that apart from its traditional focus on area studies in its programme activities, the ICWA has made recent efforts to also focus on broad themes such as Gandhiji and the World, maritime affairs, advancing reformed multilateralism, Gender within International Relations and Diplomacy, and contribution of Indian soldiers in the First World War. He noted that the Council had made full use of digital platforms during the pandemic which has provided opportunities for expanding its outreach.

**Who:** World Zoonoses Day 2021

**What:** was observed on July 6

World Zoonoses Day is observed every year on July 6 to commemorate the first vaccination administered against a zoonotic disease like Ebola, Avian influenza, and West Nile virus. Zoonosis is an infectious disease that spread from non-human animals to humans. Zoonotic pathogens can be bacterial, viral, or parasitic which can spread to humans through direct contact or through food, water, or the environment. For example, Coronavirus spread from bats to humans, and we already have witnessed how it can create a major public health problem around the world.

Zoonoses comprise a large percentage of all newly identified infectious diseases like HIV, Ebola virus disease and salmonellosis. They started as a zoonosis but later mutate into human-only strains. The first vaccination against a zoonotic disease was successfully administered on July 6, 1885, by a French biologist, Louis Pasteur. The day is also celebrated to raise awareness about the risk of zoonotic diseases and their prevention.
