**When:** published on 25<sup>th</sup> February 2021

"The defining event of the year that has gone by has been the Covid-19 pandemic, something which the world is still struggling to come to terms with. The time has now come to investigate what the pandemic is going to leave behind for us in the longer term – a lost generation, scarred by ill-health, malnourishment, acute poverty and a debilitating break in educational accomplishments. This is what the State of India's Environment (2021) Annual reports and brings to life," said Sunita Narain, director general, Centre for Science and Environment (CSE) and editor, Down To Earth, while releasing the annual publication here today.

The SoE – as the State of India's Environment report is referred to – is an annual publication of Down To Earth magazine, brought out in association with CSE. The 2021 edition, a 442-page compendium of news, views and analysis, was jointly released here today at an online event by over 60 environmental thinkers and activists, journalists and academics from across India (see a full list below). **Who:** TGB & APGVB

**What:** become 1st RRBs in India to Launch Video-KYC Facility

**When:** published on 2<sup>nd</sup> March 2021

The Telangana Grameena Bank (TGB) and Andhra Pradesh Grameena Vikas Bank (APGVB) have launched Digital Savings Account opening, for new customers, through a video-KYC (know your customer) process.

The two regional rural banks were selected by State Bank of India to implement the pilot project of the video-KYC, which eventually is to be offered at all 14 RRBs sponsored by SBI.

SBI Chairman Dinesh Kumar Khara, who virtually launched the facility on Monday, appreciated the efforts of RRBs and application service provider C-Edge Technologies in implementing video-KYC feature. The RRBs possessed the skill sets and were nimble-footed with an ability to adopt new technologies. Launch of such facilities was a reflection of their progressive thinking. He complimented chairmen of the RRBs and expressed confidence that the banks will change the complexion of rural economy and make the parent bank proud. ([Read more](#))

## 12. Hints to Remember

**Who:** World Bank

**What:** plans \$100-mn Guarantee Scheme for Solar Rooftop Projects

**When:** published on 2<sup>nd</sup> March 2021

The World Bank plans to introduce a \$100-million credit guarantee scheme to boost India's rooftop solar programme, which has not gained enough traction.

The scheme will allow micro, small, and medium enterprises (MSMEs) to avail concessional debt financing for setting up rooftop solar units, said two people aware of the development requesting anonymity.

The World Bank scheme, along with State Bank of India (SBI) and the MSME ministry to accelerate adoption of rooftop solar units, will help MSMEs access credit of around \$1 billion. The arrangement will be beneficial for the firms that often do not meet the lending criteria of banks and other financial institutions, with their financial woes been exacerbated by the covid-19 pandemic.[\(Read more\)](#)

### 13. Hints to Remember

**Who:** SEBI

**What:** eases listing rules for large IPOs, LIC to be biggest beneficiary of relaxation

**When:** published on 18<sup>th</sup> February 2021

The Securities and Exchange Board of India (SEBI) has eased public issue norms for large entities, making it easier for the government to sell a part of its stake in Life Insurance Corporation (LIC) through a mega initial public offering (IPO).

The government's plan to sell the stake in the country's largest insurer has been marked by complications given the sheer size of the state-run company. To put things in perspective, just a 10 percent share sale to the public is pegged to be at least Rs 1 lakh crore, which will be tough for the market to absorb.

The move by SEBI on Wednesday to ease the minimum offer and public holding norms will allow the government more time to abide by rules. As per the new norms now, for any company with a post-issue market capital of above Rs 1 lakh crore, the IPO size will have to be Rs 10,000 crore plus 5 percent of the incremental market capitalisation amount.[\(Read more\)](#)

### 14. Hints to Remember

**Who:** Global CO2

**What:** emissions continue upward trend despite pandemic

**When:** published on 2<sup>nd</sup> March 2021

Global energy-related carbon dioxide emissions fell by 5.8% in 2020, primarily due to the impact of the COVID-19 pandemic on travel and economic activities, according to the International Energy Agency (IEA). However, after hitting a low in April, global emissions rebounded strongly and rose above 2019 levels in December.

"In absolute terms, the decline in emissions of almost 2 billion tonnes of CO2 is without precedent in human history - broadly speaking, this is the equivalent of removing all of the European Union's emissions from the global total," the IEA said.

Demand for fossil fuels was hardest hit in 2020 - especially oil, which fell by 8.6%, and coal, which dropped by 4%. Oil's annual decline was its largest ever, accounting for more than half of the drop in global emissions. Global emissions from oil use plummeted by more than 1.1 billion tonnes CO2, down

from around 11.4 billion tonnes in 2019. The drop in road transport activity accounted for 50% of the decline in global oil demand, and the slump in the aviation sector for around 35%.[\(Read more\)](#)

**Who:** One in four people

**What:** will have hearing problems by 2050: WHO's 1st Report on Hearing

**When:** published on 2<sup>nd</sup> March 2021

One in four of the world's population will suffer from hearing problems by 2050, the World Health Organization warned Tuesday, calling for extra investment in prevention and treatment.

The first-ever global report on hearing said that the causes of many of the problems -- such as infections, diseases, birth defects, noise exposure and lifestyle choices -- could be prevented.

The report proposed a package of measures, which it calculated would cost \$1.33 per person per year.

Against that, it set the figure of nearly a trillion US dollars lost every year because the issue was not being properly addressed.

"Failure to act will be costly in terms of the health and well-being of those affected, and the financial losses arising from their exclusion from communication, education and employment," said the report.[\(Read more\)](#)

**Who:** MoHUA

**What:** Launches Field Assessment of Swachh Survekshan 2021

**When:** published on 2<sup>nd</sup> March 2021

Mr. Durga Shanker Mishra, Secretary, Ministry of Housing and Housing Affairs (MoHUA) launched the field assessment of Swachh Survekshan (SS) 2021, the sixth edition of the annual cleanliness survey conducted by the Government of India, at a web event in New Delhi today. SS was introduced by MoHUA in 2016 as a competitive framework to encourage cities to improve the status of urban sanitation while encouraging large scale citizen participation.

Speaking at the webinar, Mr. Mishra said, "SS has led to a spirit of healthy competition among cities and towns of India. The journey that started in 2016 with only 73 cities with million plus population has grown manifold, with 434 cities in 2017, 4,203 cities in 2018, 4,237 cities in 2019 and 4,242 cities in SS 2020, including 62 Cantonment Boards. Cities have been regularly filling in their data, updating their progress in the MIS along with running several citizen centric campaigns in preparation of SS 2021. Today, we are happy to formally kick off the survey as more than 2,000 assessors get ready to go on the field to assess the performance of cities".

Every year, the on-field assessments for SS takes place between January 4-31. However, the same had been delayed by two months due to the COVID-19 pandemic and will now be conducted between 1-28 March 2021. The Swachh Survekshan framework is redesigned innovatively every year, to ensure that the process becomes more robust. Keeping in mind the Ministry's efforts towards ensuring sustainability of the sanitation value chain, the SS 2021 indicators focus on parameters pertaining to wastewater treatment and reuse along with faecal sludge. Similarly, the crucial issues of legacy waste management and remediation of landfills have also been brought to the fore in this edition of Survekshan. [\(Read more\)](#)
