2.

Hints to Remember

Who: Union Textiles Minister, Smriti Zubin Irani

What: inaugurated the renovated Handloom Haat in New Delhi

When: published on 5th March 2019

Union Textiles Minister, Smriti Zubin Irani, inaugurated the renovated Handloom Haat in New Delhi. She also launched three projects of NIFT - VisionNXT – Trend Forecasting Initiative, Indian Textiles and Craft Repository and Design Innovation and Incubation. The Haat at Janpath in New Delhi has been set up by Ministry of Textiles to provide marketing opportunities to authentic handloom products from various States, PSUs and cooperative societies. Its main objective is to provide infrastructure support to handloom agencies to augment their sales of handloom products and to showcase the exquisite variety of handloom products produced all over the country. Textiles Minister also released a booklet - World Handmade Textile Biennales on this occasion.

Speaking on this occasion, Smriti Zubin Irani said that this is an effort to recreate history and revive the history of art. She said the NIFT will accomplish their job through artificial intelligence. The Textiles Minister further said that the virtual museum will not only help industry and research scholars but also carry forward the knowledge to the next generation. MoS Textiles, Ajay Tamta, also spoke on this occasion.

9.

Hints to Remember

Who: Google

What: Launches Reading Tutor App 'Bolo' For Kids In India

When: published on 7th March 2019

Google launched a free app called "Bolo" that parents can download to help primary grade children improve their Hindi and English reading skills. Launched in India first, the app is designed to work offline and comes with a built-in reading buddy, "Diya", who encourages, aids, explains, and corrects the child, as they read aloud.

Google said it would not collect any data on children through the app and it would not have any advertisement.

"Nothing is ever sent to Google through the app - not even the voice samples," Nitin Kashyap, Product Manager, Google India, told IANS, adding that the app is meant for just 10-15 minutes of daily use.

He added that because the app works offline, there is less chance that children would get distracted and they would start doing something else online.
