1	2	3	4	5	6	7	8	9	10
B	A	C	A	A	B	D	A	C	D

**Explanations:**

1.

**Hints to Remember**

**Who:** Indian Coast Guard Ship (ICGS) Vighraha, a frontline offshore patrol vessel

**What:** was decommissioned at Visakhapatnam, Andhra Pradesh

**When:** published on 16th May 2019

Indian Coast Guard Ship (ICGS) Vighraha, a frontline offshore patrol vessel, sailed into history at the sunset on Wednesday. After 29 glorious years of service from 1990 to 2019, the ship was decommissioned at the coast guard jetty here.

ICGS Vighraha was the seventh offshore patrol vessel built by the Mazagaon Dock Limited, Mumbai and it was commissioned on April 12, 1990. The ship was later based at Visakhapatnam and has been instrumental in protecting the east coast in general and Andhra Pradesh coast in particular since then.

2.

### Hints to Remember

**Who:** BSE

**What:** launches mobile app for its mutual fund platform

**When:** published on 16th May 2019

Leading stock exchange BSE said it has launched 'BSE StAR MF' app to enable more participation and help mutual fund distributors process transactions faster. "BSE StAR MF mobile app supports real-time client registration and paperless transactions, creates and uploads mandate for SIPs, generates the basket of multiple orders, tracks and allows the distributor to analyse his business at his fingertips," the exchange said in a release.

The app can be downloaded from Google Play Store. Once the app is downloaded, the sign up can be done by providing the member identification number, it added.

#### **Hints to Remember**

**Who:** Researchers in Germany

**What:** have unearthed a new species of flying dinosaur

**When:** published on 16th May 2019

Researchers in Germany have unearthed a new species of flying dinosaur that flapped its wings like a raven and could hold vital clues as to how modern-day birds evolved from their reptilian ancestors.

For more than a century and a half since its discovery in 1861, Archaeopteryx -- a small feathered dinosaur around the size of a crow that

lived in marshland around 150 million years ago -- was widely considered to be the oldest flying bird.

Palaeontologists from Ludwig-Maximilians University (LMU) in Munich and the University of Fribourg examined rock formations in the German region of Bavaria, home to nearly all known Archaeopteryx specimens.

5.

#### **Hints to Remember**

**Who:** 6th Session of the Global Platform for Disaster Risk Reduction (GP2019)

**What:** was concluded in Geneva, Switzerland

**When:** published on 17th May 2019

6th Session of the Global Platform for Disaster Risk Reduction (GP2019) was concluded in Geneva, Switzerland with the theme of “Resilience Dividend: Towards Sustainable and Inclusive Societies”.

The session featured a high-level dialogue and several working sessions, including talks on national and local disaster risk reduction (DRR) strategies, multi-hazard early warning systems (MHEWS), and the role of cities in achieving inclusive climate and disaster resilience.

High-level dialogue participants discussed how to work towards achieving the international agendas set out in the Sendai Framework for DRR, the Paris Agreement on climate, and the 2030 Agenda for Sustainable

Development in a coherent manner, with a strong focus on reducing vulnerability and poverty. Participants observed that urbanization is the defining demographic trend of this century, and requires resilient and inclusive infrastructure.

### **Hints to Remember**

**Who:** Shahrukh Khan

**What:** collaborates with TV show host David Letterman for Netflix Special

**When:** published on 17th May 2019

India's Shahrukh Khan has collaborated with the veteran American talk show host David Letterman for a Netflix stand-alone special.

As per the press release issued by the streaming service, the show will be all about in-depth conversations, for which Letterman is renowned and in-the-field segments expressing his curiosity and humour.

The 53-year-old Bollywood star said he was honoured to share his story with Letterman. "I've watched David Letterman's late-night talk show for years and I'm a huge fan of his style of interviewing. I'm thrilled, and honoured to share my story with him. That this is on Netflix is even more special I'm working with the team on various projects and it's always been exciting partnering with them," Shah Rukh said.

**Hints to Remember**

**Who:** Arunachal Pradesh

**What:** has 35 pc of India's graphite deposits

**When:** published on 15th May 2019

The Geological Survey of India, GSI, has revealed that 35 per cent the country's Graphite deposits of the country is found in Arunachal Pradesh.

The GSI presented the data during its annual interactive meeting with the Department of Geology and Mining and Government of Arunachal Pradesh in Itanagar yesterday.

An official release said that India is now importing this mineral from other countries. It said the State could be the leading producer of graphite in the country in future.

8.

**Hints to Remember**

**Who:** CTBTO

**What:** invites India to be an observer at meetings

**When:** published on 13th May 2019

The executive secretary of the Comprehensive Test Ban Treaty Organization (CTBTO), Lassina Zerbo, has invited India to be an observer in the CTBT.

“I’m not asking India to ratify [the treaty] — I know that is not possible now — but I think giving India the opportunity to join as an observer could be a good starting point,” he said. He was speaking to a group of Indian journalists at the CTBTO in Vienna.

He spoke of the changes in the organisation, which has moved from being more confined in CTBT and International Monitoring System. “[This is] because we are making the data available to people — which is not traditional. This wasn’t possible at the beginning of the organisation. We had what was called the ‘task leader for data confidentiality’, which does not exist any more,” he said.

Being an observer would give India access to data from the International Monitoring System — a network which when complete will consist of 337 facilities (321 monitoring stations and 16 radionuclide labs) located in 89 countries. This system can detect even small nuclear explosions using seismology, hydroacoustics, infrasound and radionuclide technology.
