Puzzle Questions for RBI Asst. Pre Exam

PT Set No 219

Directions: Read the given information carefully and answer the questions given beside:

Eight People N, O, P, Q, R, S, T and U live in a building which has eight floors where the lowermost floor is numbered as 1 and the topmost floor is numbered as 8. Only one person lives on one floor. Two persons live between T and N, whose floor number is a perfect square. P lives an odd number floor. R lives immediately below to Q and two persons live between R and S. O is not immediate neighbor of S. Three persons live between T and Q.

1. How many persons live between R and U?

- A. Two B. Three C. Four D. None E. None of these

2. Which of the following is true regarding P?

- A. P lives on floor numbered 5. B. P lives immediately below to U.
C. Two persons live between T and R D. P lives immediately below to R.
E. None of these

3. Which of the following is living on the topmost floor?

- A. O B. U C. Q
D. Either O or U E. None of these

4. Four of the five are alike in a certain way and hence form a group, which of the following does not belong to the group?

- A. Q B. U C. N D. R E. O

5. How many persons live above S?

- A. Two B. One C. Three D. Four E. None of these

Correct Answers:

1	2	3	4	5
B	D	A	A	C

Common Explanation (1-5)

References:

Two persons live between T and N, whose floor number is a perfect square.

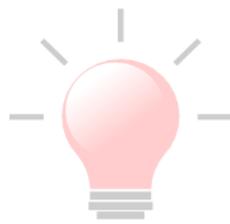

Three persons live between T and Q.

R lives immediately below to Q

Inference:

As per the first hint it is clear that N lives on either floor numbered 1 or 4.

CASE 1: if N lives at floor number 1. And apply hint 2nd and 3rd.

Floor number	Persons
8	Q
7	R
6	
5	
4	T
3	
2	
1	N

CASE 2- If N lives at floor number 4. In case 2 we can see that T either two places below or above N but we cannot place T to two places below N because hint 2 and 3 is not valid with this condition.

So we have to place T at 7 numbered floor.

Floor number	Persons
8	
7	T
6	
5	
4	N
3	Q
2	R
1	

Reference:

Two persons live between R and S.

P lives an odd numbered floor.

O is not immediate neighbor of S.

Inference:

As per the hint 1st case 1 is invalid because we cannot place S to two places below or above to R.

CASE 2- As per the hint 2nd, P definitely lives at floor numbered 1. And O lives at floor numbered 8.

Floor number	Persons
8	O
7	T
6	U
5	S
4	N
3	Q
2	R
1	P

Final Arrangement:

Floor number	Persons
8	O
7	T
6	U
5	S
4	N
3	Q
2	R
1	P

1. Three persons live between R and U.

Hence option B is correct.

2. P lives immediately below R. This is true.

So, option D is correct.

3. O lives at topmost floor.

Hence option A is correct.

4. Except Q all (U, O, N, R) live on even numbered floor.

Hence option A is correct.

5. Three persons live above S.

Hence option C is correct.
