Puzzle Test Quiz 52

Directions: Study the following information carefully and answer the questions given below:

Six Bride grooms Parbej, Quasar, Rayim, Saraf, Taarun and Udbhav married within a Year in the months February, April, July, September, November and December. The Brides are Aavya, Bansri, Carina, Daisha, Eiliyah and Faritha. All of them got married in different countries such as England, South Africa, New Zealand, Pakistan and Netherland. All the information is not necessarily in same order. The following are some facts about their marriages.

Rayim's wedding took place in South Africa, however he was not married Aavya or Faritha.

Parbej's wedding took place in Australia and Taarun's wedding in New Zealand, but neither of them was married to Bansri or Daisha.

The wedding in Netherland took in the month which has less number of days.

The Bride Carina's wedding took in the month of April, but not in Australia.

Aavya and Eiliyah got married in February and November respectively and in South Africa and Netherland, but not necessarily in same order.

Saraf's marriage was held in December.

Udbhav was married to Bansri but not in July.

Quasar marriage did not take place in neither New Zealand nor England.

Daisha's marriage took place in Pakistan.

Question:

1. Who among the following belongs to the pair whose marriage took place in England?

A. Qusar B. Udbhav C. Saraf D. Taarun E. Parbej

2. Who among the following is the spouse of the one whose marriage was held in July?

A. Aavya B. Bansri C. Faritha D. Eiliyah E. Daisha

3. If Carina is sister of Parbej, then which among the following places the marriage of Brother in law of Parbej took place?

A. Australia B. Pakistan C. England D. New Zealand E. Cannot be determined

4. Which of the following combinations is true?

A. Parbej-Aavya-January-New Zealand

B. Saraf-Daisha-December-Pakistan

C. Udbhav-Eiliyah-September-Australia

D. Quasar-Bansri-April-Netherland

E. None of these

5. Four of the following five are alike in a certain way and hence form a group. Which of the following does not belong to the group?

A. Parbej-December B. July-Daisha C. Taarun-November D. Rayim-September

E. Quasar-April

Correct Answers:

1	2	3	4	5
B	C	D	B	E

Common Explanation

References:

Aavya and Eiliyah got married in February and November respectively and in South Africa and Netherland, but not necessarily in same order.

Rayim's wedding took place in South Africa, however he was not married Aavya or Faritha.

The wedding in Netherland took in the month which has less number of days.

Inference:

Aavya got married in February and Eiliyah got married in November. Both of them marriage held in either South Africa or Netherland. [But we don't the correct order]

Rayim's marriage held in South Africa, but he didn't married Aavya or Faritha. Then he must marry Eiliyah. Thus Aavya marriage held in Netherland.

The wedding in Netherland took in the month which has less number of days. [Only February has less number of days among given month-28 days]

So in February Aavya got married in Netherland.

Thus we get the table,

Bride Groom	Bride	Country
Rayim	Eiliyah	South Africa - November

Days	Month	Bride Groom	Bride	Country
28	February		Avaya	Netherland
30	April			
31	July			
30	September			
30	November	Rayim	Eiliyah	SouthAfrica
31	December			

References:

Saraf's marriage was held in December.

The Bride Carina's wedding took in the month of April, but not in Australia.

Udbhav was married to Bansri but not in July.

Inference:

From this information, we get some couple as,

Bride Groom	Bride	Country
Rayim	Eiliyah	South Africa -November
Udbhav	Bansri	July

We get table as,

Days	Month	Bride Groom	Bride	Country
28	February		Avaya	Netherland
30	April		Carina	Australia
31	July			
30	September			
30	November	Rayim	Eiliyah	SouthAfrica
31	December	Saraf		

References:

Parbej's wedding took place in Australia and Taarun's wedding in New Zealand, but neither of them was married to Bansri or Daisha.

Quasar marriage did not take place in neither New Zealand nor England.

Daisha's marriage took place in Pakistan.

Inference:

Remaining bride groom left is Parbej, Taarun & Quasar.

Note: Carina marriage not held in Australia & Avaya Marriage held in Netherland.

Then Parbej must marry Faritha whose marriage held in Australia.

Similarly, Taarun must marry Carina whose marriage held in Newzeland

Bride Groom	Bride	Country
Rayim	Eiliyah	South Africa -November
Udbhav	Bansri	July
Parbej	Avaya & Carina Faritha	Australia
Taarun	Avaya & Daisha Carina	New Zealand
	Daisha	Pakistan

Based on this couple information, we fill the Table as,

Note: We have July &, September (full slots) & it filled by Udbhav, and Parbej couple.

So Saraf must marry Daisha whose marriage held in Pakistan.

Thus, Quasar must marry Avaya whose marriage held in Netherland.

Days	Month	Bride Groom	Bride	Country
28	February	Quasar	Avaya	Netherland
30	April	Taarun	Carina	New Zealand
31	July			
30	September			
30	November	Rayim	Eiliyah	SouthAfrica
31	December	Saraf	Daisha	Pakistan

Udbhav marriage not in July, then it must be in September month held in England and Parbej marriage held in July month.

Thus final Table,

Days	Month	Bride Groom	Bride	Country
28	February	Quasar	Avaya	Netherland
30	April	Taarun	Carina	New Zealand
31	July	Parbej	Faritha	Australia
30	September	Udbhav	Bansri	England
30	November	Rayim	Eiliyah	South Africa
31	December	Saraf	Daisha	Pakistan

The Question Bank

Answer:

1.

Following the common explanation, we get "**Udbhav-Bansri-September-England**".

Hence, option B is correct.

2.

Following the common explanation, we get "**Faritha-Parbej-July-Australia**".

Hence, option C is correct.

3.

Following the common explanation, we get "**Carina-Taarun-April-New Zealand**".

If Carina is sister of Parbej, then Taarun is the brother in law of Parbej.

Hence, option D is correct.

4.

Following the common explanation, we get "**Saraf-Daisha-December-Pakistan as the true combination.**"

Hence, option B is correct.

5.

Following the common explanation, we get "**Quasar-28 days, April-30 days**".

Remaining options are paired with the month which has same days as their original month of marriage.

Whereas Quasar is paired with the month of April which has 30 days while his original month of marriage i.e. February has 28 days only.

Hence, option E is correct.
