Puzzle test for SBI Clerk Pre, IBPS Clerk Pre, LIC Assistant, and IBPS RRB Exams.

PT Set No 64

Directions: Study the following information carefully and answer the questions given beside.

Seven friends namely – Anand, Balaji, Chakor, Darpak, Easharjot, Falak and Girik are living in a building of seven floors, ground floor numbered 1, first floor numbered 2 and so on till the top-most floor which is numbered 7. Each person lives on a single floor. Total number of members in their family including themselves is – one, six, one, two, four, three and two but not necessarily in the same order.

Girik's family has 1 more person than Anand's family. Chakor does not live on 6th floor. Balaji with his family lives exactly below one of the couples but above the two people who live alone. There is only one floor between the two people who live alone. There are three floors between Chakor and Girik. Easharjot lives on 3rd floor with his wife only. There are total 4 persons in Balaji's family including him.

1. Which one of the following lives on fifth floor?

- A. Chakor B. Darpak C. Falak D. Girik E. None of these

2. How many members are there in Anand's family?

- A. 3 B. 2 C. 1 D. 6 E. None of these

3. Whose family consists of total three members?

- A. Anand B. Chakor C. Easharjot D. Girik E. None of these

4. How many person(s) live(s) between Easharjot and Girik?

- A. 3 B. 2 C. 1 D. 4 E. None of these

5. Which one of the following combinations of 'floor number - person - family members' is the correct one?

- A. 2 - Girik - 1 B. 3 - Easharjot - 5 C. 6 - Chakor - 4 D. 7 - Anand - 2 E. None of these

Correct Answers:

1	2	3	4	5
A	B	D	C	D

Common explanation :

Reference:

Chakor does not live on 6th floor.

Easharjot lives on 3rd floor with his wife only.

Inference:

Floor no.	Person	Number of members	Hint
7			
6			Chakor - ×
5			
4			
3	Easharjot	2	
2			
1			

Reference:

Balaji with his family lives exactly below one of the couples but above the two people who live alone. There is only one floor between the two people who live alone.

There are total 4 persons in Balaji's family including him.

Inference:

Two cases arise here:

Case 1:

Floor no.	Person	Number of members	Hint
7			
6		2	Chakor - ×
5	Balaji	4	
4		1	
3	Easharjot	2	
2		1	
1			

Case 2:

Floor no.	Person	Number of members	Hint
7		2	
6	Balaji	4	Chakor - ×
5			
4		1	
3	Easharjot	2	
2		1	
1			

Reference:

There are three floor between chakor and girik

Inference:

Chakor cannot sit on seventh floor and Easharjot is already on third floor so Girik must be living on first floor and Chakor on fifth floor.

Hence, Case 1 fails here,

Case 2:

Floor no.	Person	Number of members	Hint
7		2	
6	Balaji	4	Chakor - ×
5	Chakor		
4		1	
3	Easharjot	2	
2		1	
1	Girik		

Reference:

Girik's family has 1 more person than Anand's family.

Inference:

Therefore, Girik's family must be having 3 persons and hence, Anand has total 2 persons in his family. Only left person, Chakor must be having 6 persons.

Floor no.	Person	Number of members	Hint
7	Anand	2	
6	Balaji	4	Chakor - ×
5	Chakor	6	
4		1	
3	Easharjot	2	
2		1	
1	Girik	3	

Final table:

Floor no.	Person	Number of members
7	Anand	2
6	Balaji	4
5	Chakor	6
4	Darpak/Falak	1
3	Easharjot	2
2	Darpak/Falak	1
1	Girik	3

Answers:

1. From the common explanation, we have
Chakor lives on fifth floor.
Option A, is hence the correct answer.
2. From the common explanation, we have
Anand's family consists of 2 members including him.
Option B, is hence the correct answer.
3. From the common explanation, we have
Girik's family consists of total three members.
Option D, is hence the correct answer.
4. From the common explanation, we have
Only 1 person lives between Easharjot and Girik.
Option C, is hence the correct answer.
5. From the common explanation, we have
7- Anand - 2 is the only correct combination here.
Option D, is hence the correct answer.
