PUZZLE TEST QUIZ 76

Directions: Study the following information carefully and answer the questions given below:

Six persons – Jevan, Parth, Anant, Bhavy, Nupur and Gopal, appeared for an interview in a management company. All the persons have different years of experience in field of management and were given a different rank from 1 to 6 based on their performance in the interview.

The experience of Jevan is more than that of Gopal but less than that of Nupur.

Rank 6 is given to the person with most experience.

Anant has less experience than Jevan.

Rank of Anant and Bhavy are 5 and 3 respectively.

Parth does not have the least experience.

Gopal has a rank of 2.

Parth has a less experience than Gopal.

Anant is more experienced than at least two persons.

Common explanation:

Order of experience:

Nupur > Jevan > Anant/Gopal > Gopal/Anant > Parth > Bhavy

Reference:

Six persons – Jevan, Parth, Anant, Bhavy, Nupur and Gopal, appeared for an interview in a management company. All the persons have different years of experience in field of management and were given a different rank from 1 to 6 on the basis of their performance in the interview.

Inference:

We will keep this information in mind while solving the puzzle.

Reference:

Gopal has a rank of 2.

Rank of Anant and Bhavy are 5 and 3 respectively.

Inference:

After using the above hints, we have:

Rank	Person
1	
2	Gopal
3	Bhavy
4	
5	Anant
6	

Reference:

Rank 6 is given to the person with most experience.

The experience of Jevan is more than that of Gopal but less than that of Nupur.

Parth has a less experience than Gopal.

Inference:

At this point, we can say that Nupur has the most experience among these persons and either Parth or Jevan has ranks 1 and 4.

Rank	Person
1	Parth/Jevan
2	Gopal
3	Bhavy
4	Jevan/Parth
5	Anant
6	Nupur

And, **order of experience:**

Nupur > Jevan > Gopal > Parth

Reference:

Anant has less experience than Jevan.

Anant has a more experience than at least two persons.

Parth does not have the least experience.

Inference:

After using the above hints, we have:

Order of experience:

Nupur > Jevan > Anant/Gopal > Gopal/Anant > Parth > ____

At this point, we can say that Bhavy has least experience.

Order of experience:

Nupur > Jevan > Anant/Gopal > Gopal/Anant > Parth > Bhavy

Explanations:

1.

Following the final solution, we can say that either two or three persons have more experience than Anant.

Hence, the correct answer is option E.

2.

Following the final solution, we can say that if rank of Jevan is less than Gopal then the rank of Parth is 1.

Hence, the correct answer is option A.

3.

Following the final solution, we can say that three persons have less rank than Bhavy.

Hence, the correct answer is option D.

4.

Following the final solution, we can say that Bhavy have least experience.

Hence, the correct answer is option A.
