## Seating Arrangement Questions for RBI Asst. Pre Exam

### SA Set No 187

**Directions:** Study the following information carefully and choose the right answer given beside.

Five Friends P, Q, R, S and T are sitting in a linear row having 10 seats but not necessarily in the same order. All of them are facing north direction. 5 seats are left vacant.

S sits on one of extreme end of row. There are four seats between seat of S and R. There are three seats between seats of R and Q. Q sits on one of extreme ends of row. There are Only 4 seats to left of R. P is immediate neighbor of Q. There is gap of two seats between S and T.

1. Who sits 3rd to right of R?

- A. T      B. S      C. P      D. Q      E. None of the above

2. What is the position of Q with respect to S?

- A. Immediate left      B. Second to the left      C. Ninth to the left  
D. Immediate right      E. None of the above

3. How many persons sit between P and T?

- A. 2      B. 5      C. 4      D. 6      E. 1

4. Who is sitting at the extreme ends of row?

- A. P      B. Q      C. R      D. S      E. Both Q and S

5. Which of the following person sits 5th to the left of T?

- A. Q      B. P      C. R      D. S      E. None of these.

Correct Answers:

1	2	3	4	5
E	C	E	E	B

### Common Explanation (1-5)

**Reference:**

**References:**

S sits on one of extreme end of row.

**Inference:**

Two cases are possible here.

**Case 1.**

[All are facing North direction]									
Person	S								

**Case 2.**

[All are facing North direction]									
Person									S

**Reference:**

There are four seats between seat of S and R.

There are Only 4 seats to left of R.

**Inference:**

From above statement, we get following arrangement:

### Case 1.

[All are facing North direction]										
Person	S					R				

Case 1 gets Invalid as there are 5 seats to left of R.

### Case 2.

[All are facing North direction]										
Person					R					S

### Reference:

Q sits on one of extreme ends of row.

There are three seats between seat of R and Q.

P is immediate neighbor of Q.

There is gap of two seats between S and T.

### Inference:

From above statement, we get following arrangement:

[All are facing North direction]										
Person	Q	P			R		T			S

Hence, We got final arrangement as above.

1. Following the common explanation, we get third to the right seat of R is vacant.

Hence, option E is correct.

2. Following common explanation, we get "Ninth to the left".

Hence, option C is correct.

3. Following common explanation, though there are 4 **seats** between P and T, it's clear that only one **person** sit between P and T.

Option E is hence the correct answer.

4. Following common explanation, it's clear that Both Q and S is sitting at the extreme ends of row. Option E is hence the correct answer.

Hence, option E is correct.

5. Following common explanation, it's clear that P sits 5<sup>th</sup> to the left of T.

Hence, option B is correct.
