## Common explanation :

Let's first look at the clues provided.

- (I) Motorola was immediate right of Apple.
- (II) Apple was fourth to the right of HTC.
- (III) Oppo was between Sony and Lenovo
- (IV) HTC, which was third to the left of Sony, was at one of the ends.

It is also provided that every mobile was displayed facing north.

Since every mobile is facing the same way and Apple was right of HTC and by clue (IV) HTC was at one of the end, we can safely conclude that HTC is at the leftmost end. Because if HTC was at the rightmost end Apple couldn't have been at 4th to the right of HTC.

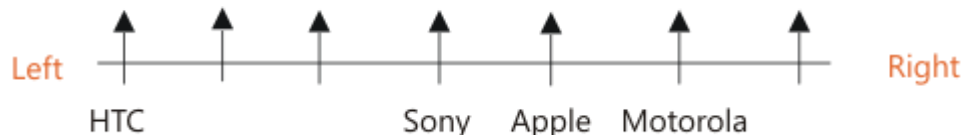

Therefore, after arranging HTC and Apple, we get;

Now, in clue (I), it is given that Motorola was immediate right of Apple.

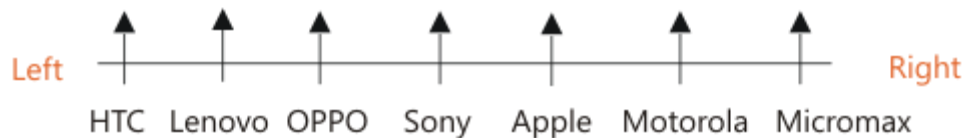

And in clue (IV), it is mentioned that HTC was third to the left of Sony.

Thus, we get;

From clue (III), Oppo was between Sony and Lenovo; since 2 unfilled positions (for Lenovo and Oppo both) are not available to the right of Sony, both these mobiles must be to the left of Sony.

By filling these positions and the rightmost empty position with Micromax, our arrangements is complete.

## Answers:

1. Following the final seating arrangement, we can say that micromax is being seated fourth to the right of OPPO.

Hence, the correct answer is option D.

2. Following the final seating arrangement, we can say that Motorola is to the immediate left of Micromax.

Hence, the correct answer is option B.

3. Following the final seating arrangement, we can observe that mobiles which are on the immediate either sides of Motorola, are Apple and Micromax.

Hence, the correct answer is option E.

4. Following the final seating arrangement, we can say that Oppo is to the immediate left of Sony.

Hence, the correct answer is option A.

5. Following the final seating arrangement, we can observe that Micromax, Motorola and Apple are to right of Sony.

Hence, the correct answer is option C.
