Seating Arrangement for IBPS Clerk Pre, SBI Clerk Pre, LIC Assistant Pre and IBPS RRB Assistant Pre Exams.

SA Set No 165

Directions: Study the following information carefully and answer the questions given beside.

Eight friends P, Q, R, S, T, U, V and W are standing in a straight line facing north, but not necessarily in the same order.

R and W are immediate neighbours of S. V is immediate neighbour of U and W. T and Q are immediate neighbours of P. Neither T nor R is at the extreme ends of the line. U is on the right of T.

Questions :

1. Who among the following sits second to the right of P?

- A. T B. R C. W D. V E. None of these

2. Who among the following sits second to the left of W?

- A. S B. P C. U D. R E. Q

3. Who among the following are at the extreme ends of the line?

- A. Q, U B. P, U C. U, R D. W, U
E. Other than those given as options

4. Who among the following are immediate neighbours?

- A. Q, T B. T, R C. S, U D. P, R E. None of these

5. Which of the following statements is/are true?

- A. S is on the immediate right of W. B. Q is not at any extreme end of the line.
C. R is between T and S. D. U is at the extreme left end of line.
E. Other than those given as options

Correct Answers:

1	2	3	4	5
B	D	A	B	C

Common explanation :

R and W are immediate neighbours of S.
V is immediate neighbour of U and W.

Inference:

R S W V U (Case 1)

U V W S R (Case 2)

Reference:

T and Q are immediate neighbours of P. U is on the right of T.

T P Q

Q P T

Clearly, we can fix above placements of T, P and Q only in case 1 because in the reference taken it's been mentioned that 'U is on the right of T'. Hence, case 2 gets eliminated here.

Thus, we get

T P Q R S W V U (Case 1-A)

Q P T R S W V U (Case 1-B)

Reference:

Neither T nor R is at the extreme ends of the line.

Inference:

Clearly, case 1-A fails here and case 1-B is the final seating arrangement.

Q	P	T	R	S	W	V	U
---	---	---	---	---	---	---	---

Answers:

1. Following common explanation, we get that R is sitting second to the right of P.

Hence, option B is correct.

2. Following common explanation, we get that R is sitting second to the left of W.

Hence, option D is correct.

3. Following common explanation, we can say that Q and U are sitting at extreme ends of the row.

Hence, option A is correct.

4. Following the common explanation, we have

Among the choices available, only T and R are the persons who are immediate neighbours to each other.

Hence, option B is correct.

5. Following common explanation, we have

Clearly, R is between T and S and hence the statement given as option C is true.

Hence, option C is correct.
