Correct answers:

1	2	3	4	5	6	7	8	9	10
C	B	A	E	A	A	E	A	D	C

Explanations:

1.

Farakka Super Thermal Power Plant is located at Nabarun in Murshidabad district in Indian state of West Bengal. The power plant is one of the coal based power plants of NTPC.

Hence, option C is correct.

2.

Korba Super Thermal Power Plant is located at Jamnipali in Korba district in the Indian state of Chhattisgarh. The power plant is one of the coal-based power plants of National Thermal Power Corporation (NTPC). The coal for the power plant is sourced from Kusmunda and Gevra Mines. The source of water for the power plant is Hasdeo River.

Hence, option B is correct.

3.

Deenbandhu Chhotu Ram Thermal Power Plant is located at Yamuna Nagar in Haryana. The power plant is one of the coal based power plants of HPGCL. It was jointly constructed by Reliance Energy Limited and Shanghai Electric (China).

Hence, option A is correct.

4.

Chandrapur Super Thermal Power Station is a thermal power plant located in Chandrapur district of Maharashtra. The power plant is one of the coal based power plants of MAHAGENCO. The coal for the power plant is sourced from Durgapur and Padmapur Collieries of Western Coalfields Limited. The total capacity of plant is 3340MW and it is largest power plant in the Maharashtra.

Hence, option E is correct.

5.

Raichur Thermal Power Station (RTPS) is a coal-fired electric power station located in the Raichur district of the state of Karnataka, India. It is operated by the Karnataka Power Corporation Limited (KPCL) and was the first thermal power plant to be set up in the state.

Hence, option A is correct.

6.

Bokaro Thermal Power Station is located at Bokaro district in Jharkhand. It has an installed capacity of 630 MW. The First unit was commissioned in March 1986. The station is located on the banks of the Konar River.

Hence, option A is correct.

7.

Talcher Super Thermal Power Station is located in Angul district of Odisha. It is the first mega power plant of India to have an installed generation capacity of 3000MW. The power plant is one of the coal-based power plants of NTPC. The coal for the power plant is sourced from Lingraj Block & Kaniha coal block of Mahanadi Coalfields Ltd. and source of water for the power plant is from Samal Barrage Reservoir on Brahmani River.

Hence, option E is correct.

8.

Singrauli Super Thermal Power Plant is located at Shaktinagar in Sonebhadra district in Indian state of Uttar Pradesh. The power plant is the first power plant of NTPC. It sources coal from Jayant and Bina mines and water from Rihand Reservoir.

Hence, option A is correct.
