Syllogism Questions for SBI Clerk Pre, IBPS Clerk Pre, LIC Asst. Pre and IBPS RRB Exams.

Syllogism Quiz 23

Directions: In each question some statements followed by some conclusions. You have to take given statements to be true even if they seem to be at variance with commonly known facts and then decide which of the given conclusions logically follows from the given statements.

1. Statements :

Some People are bookish.

No bookish is animal.

Only Animals are pet.

Conclusions :

I. Some pets being people is a possibility.

II. Some people can be animal.

(A.) Both I and II follow

(B.) Neither I nor II

(C.) Either I or II

(D.) Only I

(E.) Only II

2. Statements :

All ants are small.

Some ants are big.

All small is medium.

Conclusions :

I. Some medium is ants.

II. All big is Medium.

(A.) Both I and II follow

(B.) Neither I nor II

(C.) Either I or II

(D.) Only I

(E.) Only II

3. Statements :

Some minimum is maximum.

No maximum is glass.

Only maximum is pencil.

Conclusions :

I. None other than maximum can be pencil.

II. Some minimum can be glass.

(A.) Both I and II follow

(B.) Neither I nor II

(C.) Either I or II

(D.) Only I

(E.) Only II

4. Statements:

0% goods are sold.

100% sold are best.

30% dig is hole.

Conclusions:

I. Some hole is best.

II. All goods being dig is a possibility.

(A.) 30% dig is goods

(B.) 25% hole is best

(C.) 0% dig is sold

(D.) 50% hole is goods

(E.) None of these

5. Statements:

Only alphabets are letters.

Some alphabets are numerals.

None other than numerals are numbers.

Conclusions:

I. No letter being numeral is a possibility.

II. All numbers are numerals.

(A.) None of these follow

(B.) Only conclusion I follows

(C.) Both I and II follow

(D.) Only conclusion II follows

(E.) Either conclusion I or II follows

6. Statements:

No play is ground.
Some ground is plot.
All plot is building.

Conclusions:

I. Some building is ground.
II. No building being play is a possibility.

- (A.) Both I and II follow (B.) Only conclusion II follows
(C.) Only conclusion I follows (D.) None of these follow
(E.) Either conclusion I or II follows

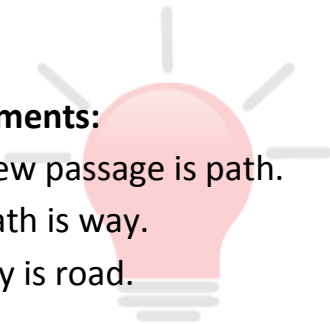

7. Statements:

Only a few passage is path.
Some path is way.
Only way is road.

Conclusions:

(I) Some road is passage.
(II) All passage can be path.

- (A.) Both I and II follow (B.) Only conclusion I follows
(C.) Either conclusion I or II follows (D.) Only conclusion II follows
(E.) None of these follows

8. Statements:

Some direction is sense.

Some blood is relation.

All relation is sense.

Conclusions:

I. No relation is direction.

II. Some direction being blood is a possibility.

(A.) Only conclusion I follows

(B.) Only conclusion II follows

(C.) Both I and II follow

(D.) None of these follow

(E.) Either conclusion I or II follows

9. Statements:

Except ranking nothing is competition.

Some ranking is healthy.

All healthy is wealthy.

Conclusions:

(I) Competition can never be healthy.

(II) Some wealthy is ranking.

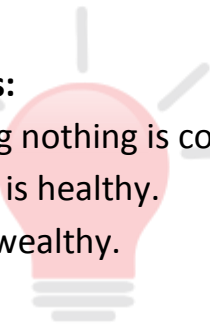

(A.) Both I and II follow

(B.) Only conclusion I follows

(C.) Either conclusion I or II follows

(D.) Only conclusion II follows

(E.) None of these follows

10. Statements:

Some clinic is hospital.

Some hospital is hostel.

All hospitals are Health centres.

Conclusions:

I. All hostel being health centre is a possibility.

II. Some clinic is hostel.

(A.) Only conclusion I follows

(B.) Only conclusion II follows

(C.) Both I and II follow

(D.) None of these follow

(E.) Either conclusion I or II follows

Explanation (1-10):

1. Explanation:

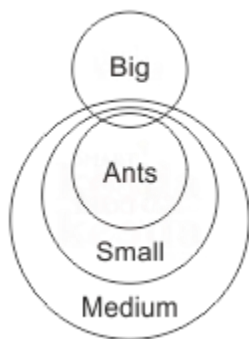

From above diagram,

Option A, it is given that only animals are pet, hence 'some pets being people is a possibility' is a wrong conclusion.

Option B, we can see in diagram that except the shaded portion in people with bookish, all other people can be animal. Hence, conclusion follows.

Hence, option E is correct.

2. Explanation:

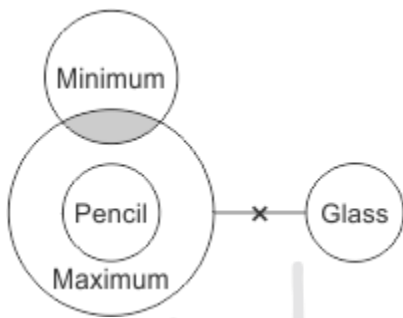

From above diagram,

Option A, it is clear from diagram that ants is inside medium. Hence, 'some medium is ants' is a correct conclusion.

Option B, we can see in diagram that big is not totally inside the medium. Hence, the conclusion is incorrect.

Hence, option D is correct.

3. Explanation:

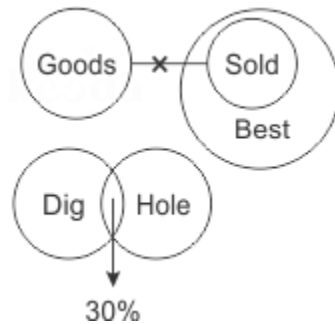

From above diagram,

Option A, we know that 'only maximum is pencil' Hence, the given conclusion is correct.

Option B, we can see in diagram that except the shaded portion in minimum with maximum, all other minimum can be glass. Hence, conclusion follows.

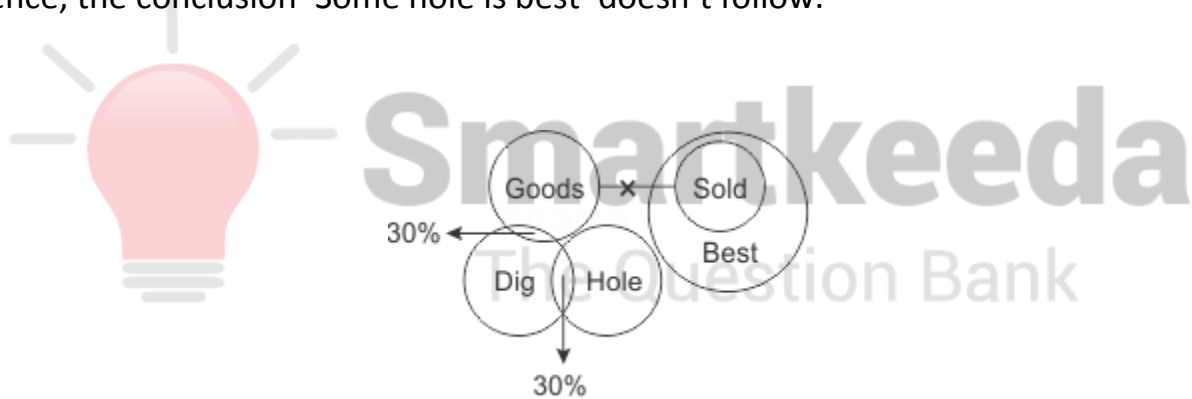

Hence, option A is correct.

4. Explanation:

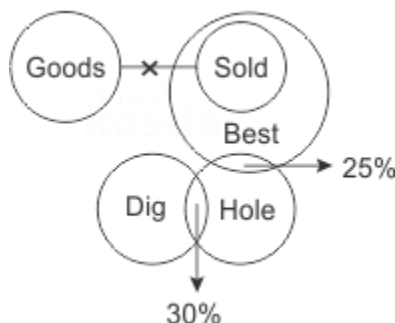

From above diagram,

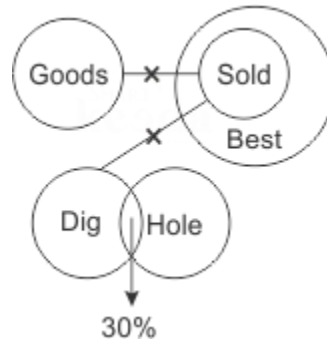

Option A, clearly from diagram we can see there is no common portion between hole and best. Hence, the conclusion 'Some hole is best' doesn't follow.

Option B, in the diagram below we can see, 'some hole is best' and 'all goods being dig is a possibility' because there is no negative relation between dig and goods. Hence, both the conclusion follows.

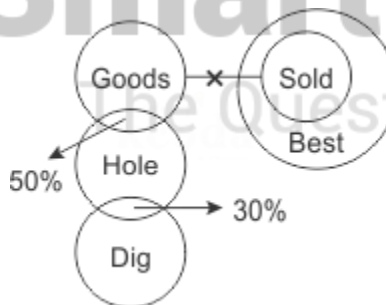

Option C, in diagram, we don't see any common portion between hole and best. Hence, conclusion I doesn't follow.

Option D, in diagram, we don't see any common portion between hole and best. Hence, conclusion I doesn't follow.

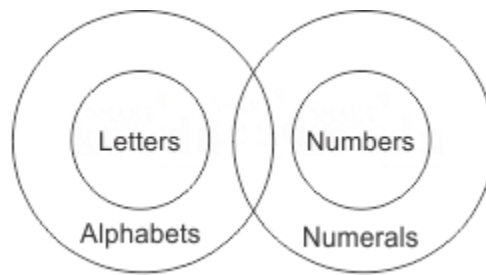

Smartkeeda

Hence, option B is correct.

5. Explanation:

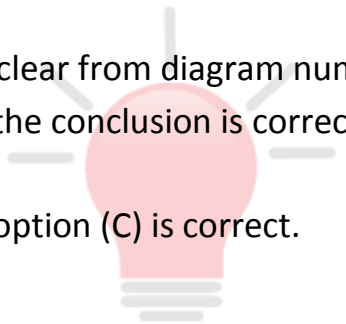

From above diagram,

C1, it is clear from diagram that 'only alphabets are letters' and nothing else can be letters. So, clearly 'No letter being numeral is a possibility' is definitely true. C1, hence, follows.

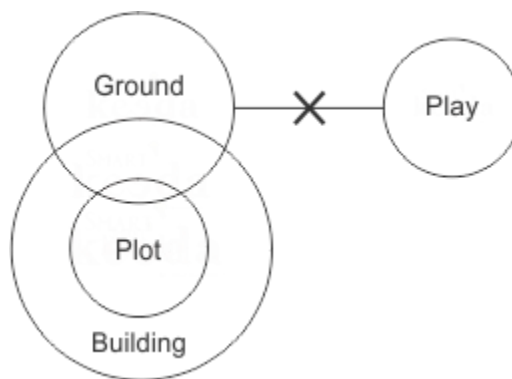

C2, it is clear from diagram numbers is inside numerals, so 'all numbers are numerals' is true. Hence, the conclusion is correct.

Hence, option (C) is correct.

Smartkeeda
The Question Bank

6. Explanation:

From above diagram,

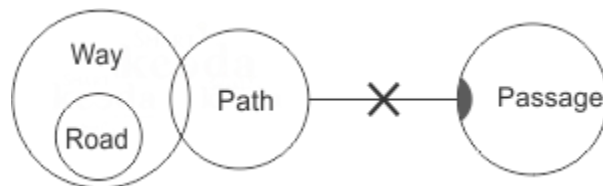

C1, it is evident from the diagram that there is some common portion between ground and

building. Hence, this conclusion is correct.

C2, we don't see any relation between building and play. Thus, we cannot say definitely that 'no building is pay' but it is a possibility. So, it is an correct conclusion.

Hence, option (A) is correct.

7. Explanation:

From above diagram,

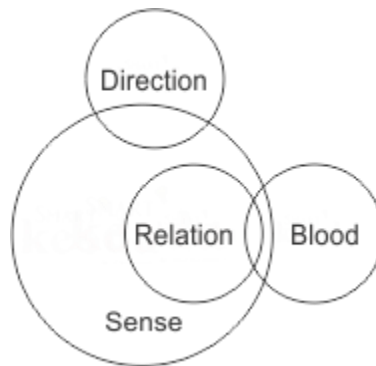

Only a few passage is path → some passage is path + some passage isn't path

C1, we don't see any common portion between road and passage. Hence, first conclusion doesn't follow.

C2, as we know, 'only a few passage is path' so the shaded portion in passage cannot be path. Hence, the conclusion 'all passage can be path' doesn't follow.

Hence, option (E) is correct.

8. Explanation:

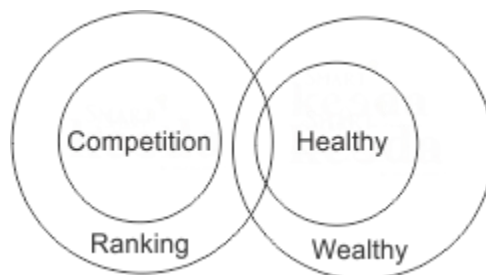

From above diagram,

C1, it is evident from the diagram that there is no negative relation between relation and direction. Hence, this conclusion is incorrect.

C2, we don't see any negative relation between direction and blood. Thus, 'some direction being blood is a possibility' is a correct conclusion.

Hence, option (B) is correct.

9. Explanation:

From above diagram,

Except ranking nothing is competition → only ranking is competition

C1, we know 'only ranking is competition' and nothing else can be competition. Hence, first
